

**IN THE DRAWINGS:**

Please amend Fig. 16B as shown in red in the attached sheet. A corrected sheet of drawings is included herewith.

### REMARKS

In the parent application, the Examiner objected to the Specification at page 16 for lacking exponent information on lines 2 and 3 and a misplaced exponent on page 3. This is clearly a typographical error . Applicant amended in the parent application and is amending herein the specification at page 16, lns. 2 and 3 to put the exponent 3 on "cm" and not "is". The Examiner also objected to the specification on page 39 as reciting a reference numeral 75 of crystal regions since numeral 75 did not appear in Figures 16A-16C. This was a mislabeling of Fig. 16B. Accordingly, Applicant amended in the parent application and is amending herein Fig. 16B to change "77" to -- 75 -- . It is believed that no new matter is being added in these amendments. Accordingly, it is requested that each be entered and allowed.

Favorable consideration is earnestly solicited.

Respectfully submitted,

Date: *October 27, 2003*
